# The complexity of tax compliance

## What makes tax compliance so challenging?

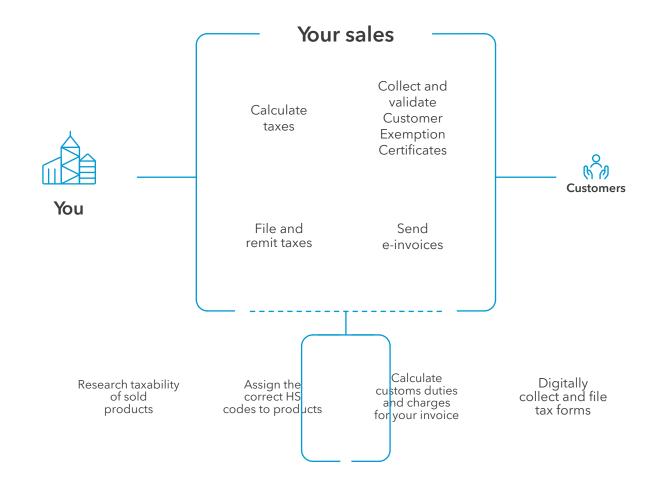

Customers

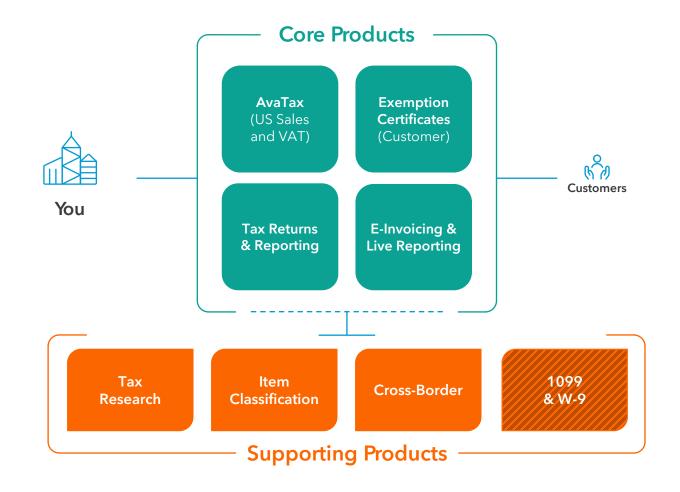

Comply with business licenses & tax registrations Assess your tax compliance risk and submit voluntary disclosures

Manage property tax assessments and returns

## CHALLENGE #1: Know your nexus

#### **A GROWING LIST**

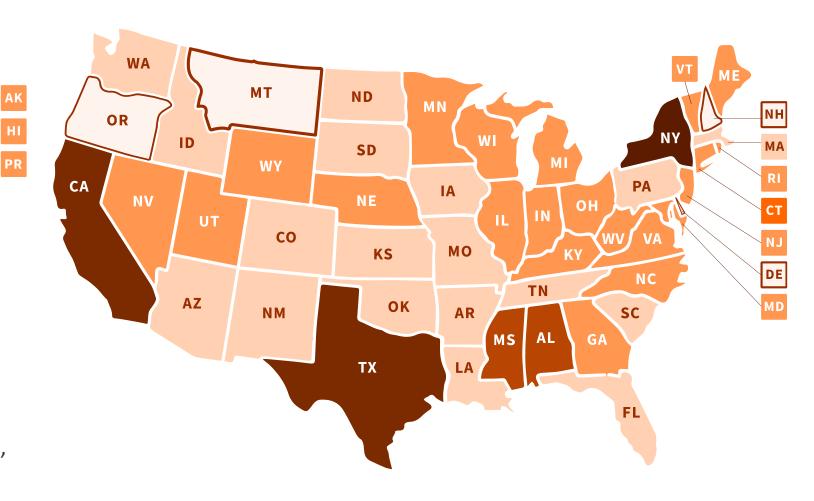

## Nexus-creating activities

<u></u>	Multi-state locations	든 Affiliates
Q-\$	Maintenance / service / repairs	Tradeshows
	Own / lease real property	[\$] Commissions to resellers QQ (1099s)
HIII.	Hosted data centers	\$ Investors / board members /
- ĈŽ	Field sales / service staff	Marketing / web advertising
	Charge licenses / royalty / fees/Franchisees	Drop shipments
Ä	Direct and / or online sales	Maintenance contracts
(A)	Maintains inventory including 3rd party owned warehouses	Remote sales

#### **Economic nexus thresholds by state**

- \$250,000
- \$100,000 **or** 200 transactions
- \$100,000
- Does not have economic nexus law
- Connecticut's threshold is gross receipts of \$100,000 and 200 retail transactions
- New York's threshold is \$500,000 and 100 transactions
- Certain states exclude resale, services, digital, SaaS, and more.

## Double check your sales tax obligations by location

Almost every state requires businesses to register to collect and file sales tax if their sales volume is high enough. Avalara's sales tax risk assessment can help you figure out where you could be on the hook for sales tax.

#### **Premium Sales Tax Risk Assessment**

Comprehensive report providing:

Where the company create nexus

When the company create nexus

Product/Service **taxability** by state

What is the **liability** if any for unreported tax, interest and penalties.

#### **CHALLENGE #2:**

# Exemption certificate management

#### Exemption certificate challenges

Nexus is often not well-understood

Omni-channel points of sale; employees often not well-trained to validate certs

Certificate expiration, tracking & updating expiring certificates

Certificate retrieval is time consuming and hard

A single missing certificate could cost much more than the taxes you failed to collect

#### **CHALLENGE #3:**

# Calculating the right sales tax amount

## Calculating the correct sales tax amount

- > There are more than **13,000** tax jurisdictions in the U.S. and **1,800** different rules.
- Each jurisdiction has different tax rates and product taxability rules.
- In 2023 alone, there were 97,000 rate and taxability updates in the U.S. and Canada
  - > 98,000 U.S. sales tax holiday rule updates
- No sales tax administered in the NOMAD states: New Hampshire, Oregon, Montana, Alaska and Delaware

#### **Avalara AvaTax**

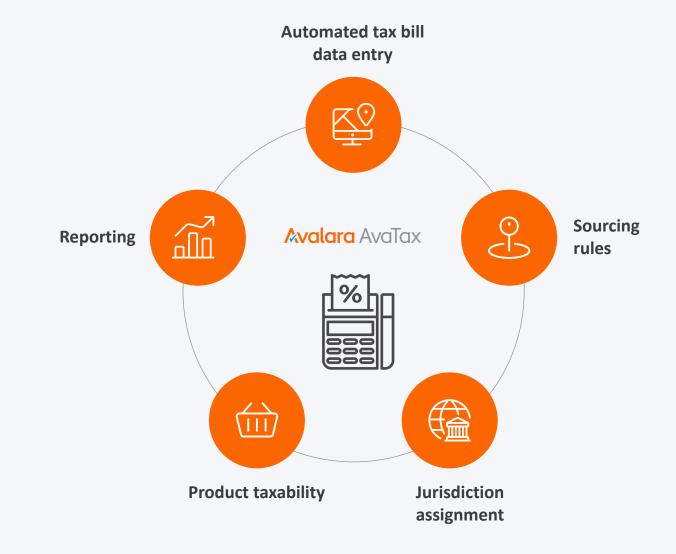

Reduce risk of exposure

Simplify tax research and maintenance

Reduce implementation time and cost through integration

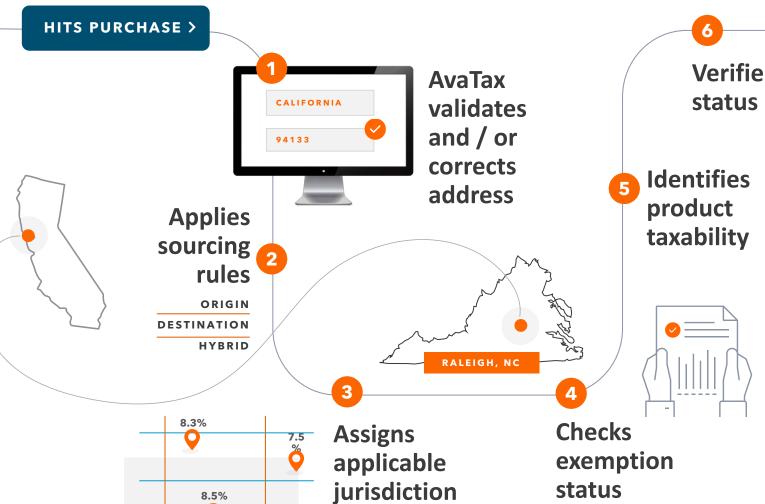

#### **SALES TAX**

### The sub-second challenge

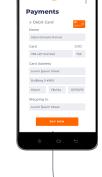

Verifies tax holiday status

Sends correct sales tax back to checkout

**Applies tax rules** 

and regulations

Stores info for future remittance

### **CHALLENGE #4:**

## Consumer use tax

#### Consumer use tax challenges

Self-assessment is a manual, resource intensive process requiring specialized skills

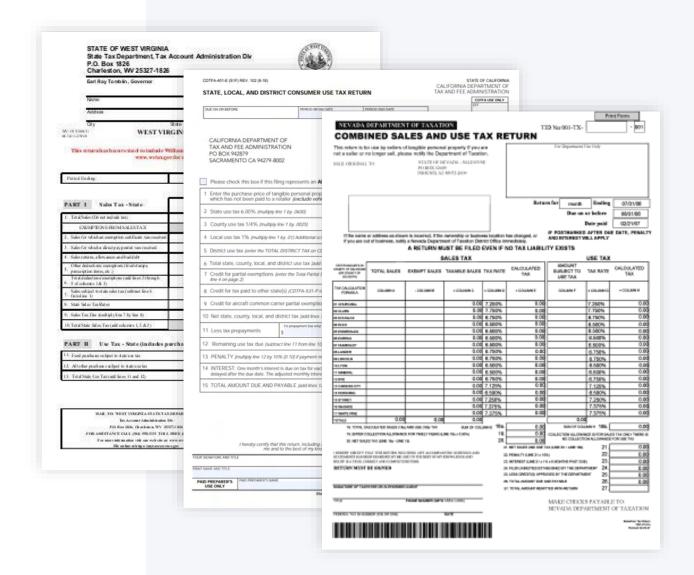

Use tax rules and rates are complex and subject to change

Integration and automation are difficult: tax triggers come from many sources & data management is complex

Audit risks are high

#### **AvaTax for Accounts Payable**

Streamline vendor use tax management by automating complex and time-consuming tasks in any procurement process

Identify, calculate, and correct overcharged and undercharged vendor use tax

Centralized within
AvaTax for real-time
calculations with
integrations as well
as batch imports

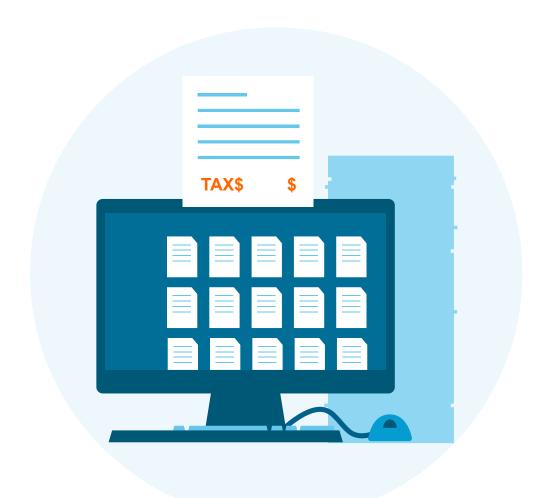

Provides a single location in which to view, act, and report on purchase transactions

Seamlessly works with Avalara applications including Vendor Exemptions, Returns and Reporting

#### **Auto-Accrual Management**

Efficiency through allocation rules and thresholds

Allocate tax from a **single line item across multiple jurisdictions** or different entity use codes

**Set thresholds** to prioritize high-risk and low-risk purchases

**Automatically accrue tax** based on thresholds for variance calculated

#### **CHALLENGE #5:**

# Filing returns and remitting tax

#### Remitting sales tax to the tax authority

#### **Overview**

Once sales tax is remitted, those funds need to be remitted back to the jurisdiction.

Each tax authority has unique requirements around remittance.

Sales tax returns must include aggregated data across all sales channels.

## **Nuances of sales tax remittance**

- Paper remittance vs online remittance
- Varying remittance due dates
- Prepayments
- Handling of tax notices
- > Filing in local jurisdictions
- Late payment fees
- Multiple payment methods

### Aggregating tax data

#### **Multiple data sources**

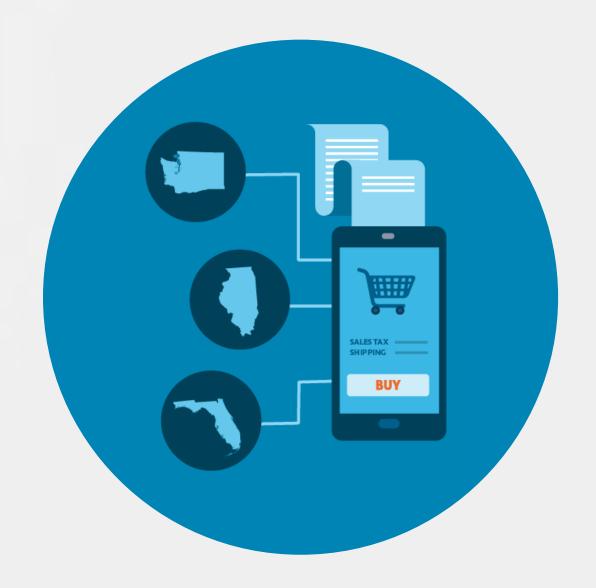

> POS, e-commerce, marketplace, accounting/ERP systems, etc.

#### **Consolidation & breakout**

State & local jurisdictions, business type & exemptions

#### **Review & reconciliation**

Process for validation and archive in case of an audit

#### Managing returns filing

## 1,000+ jurisdictions & hundreds of forms

- Latest forms
- Due dates vary by state: 15th, 20th, 25th, or last day of the month
- Filing schedules vary monthly, quarterly, or annually (subject to change)
- Timely filing discounts and late filing penalties

## Filing and payment options

- Mandatory online filing: Account setup & filing time
- > Website changes
- Coordinating filing and payment

#### **Historical records**

Proof of filing & remittance in case of audit

### **CHALLENGE #6:**

## Cross-border commerce

## The customer challenge

## **Classifying** physical goods

"I sell to over 150 countries, and each has a different classification code?"

**Understanding** import/export restrictions

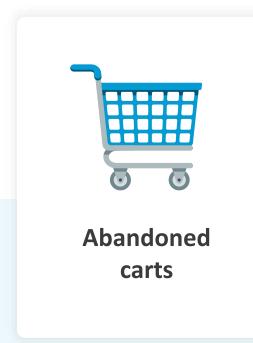

"How do I know if I'm allowed to import or export my products?"

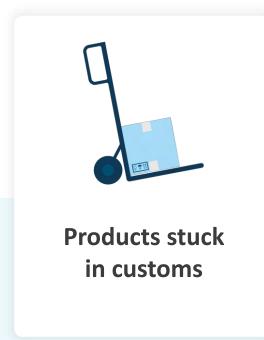

Calculating duties & taxes

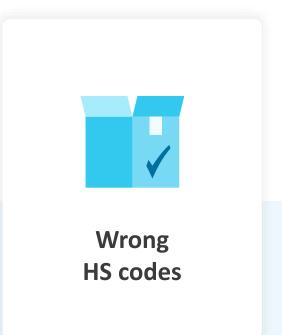

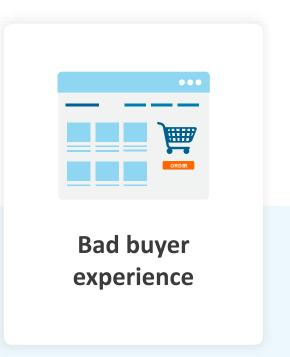

"How much do I need to charge? How do I know if I'm making or losing money?"

#### **Cross-border problems Avalara solves**

#### **Avalara Cross-Border compliance solution**

**Document Management** 

#### **CHALLENGE #7:**

# E-invoicing and live reporting

#### Digitization challenges: E-reporting & E-invoicing mandates

## Drivers behind mandates:

#### Reduce the VAT gap

- Receiving transactional details in real time limits the time for fraud
- Summary VAT reporting not sufficient

#### **Compliance standardization**

- Invoices contain all VAT relevant data
- Efficient audit checks in real time
